

John & Bryan Training Sabbatical to Canada! (March 1st, 2017 through the beginning of September)

After 11 years of providing treatments to thousands of clients at Community Acupuncture, Bryan and John have found a wonderful opportunity to enhance their healing skills. They will spend six months in Toronto Canada, traveling there from St Louis in March and returning in early September.

Bryan is enrolled in a certificate program at the National Academy of Osteopathy in Toronto. Upon his return, Bryan will add new techniques for his clients, including Total Body Balance and Cranio-Sacral therapy. John will be learning advanced fertility techniques, taking programs taught by acupuncturists, Naturopaths, and medical doctors. Upon his return, John will be sharing all the techniques he learned with our whole team of practitioners.

Community Acupuncture will continue providing treatments in their absence, offering acupuncture treatments from Monday to Saturday. Toby, Jim, and Olivia have expanded their shifts so that all of our clients can continue to receive regular sessions, even offering more total treatment hours per week than the clinic previously did.

We expect that some of you might be disappointed with this news---healing therapies often can create an interpersonal relationship between the practitioner and the client. Bryan and John will definitely miss all of you! However, you are in good hands---they wouldn't even consider this journey if they didn't have absolute faith in their team of acupuncturists, and their trusted office managers--Community Acupuncture is very fortunate to have a gifted group of professionals. And, Bryan and John will return in September renewed and refreshed, and ready to share all their enhanced skills and techniques with all of you.
